WATER TREATMENT

VACUUM BLOWER SYSTEM

PORTABLE OR STATIONARY GASOLINE VACUUM SYSTEM

The **VAC Series Gasoline Vacuum Blower System** is a gasoline engine powered, water recovery system that packs a punch. Choose from dependable Vanguard, Kohler or Honda Engines which will provide years of reliable service. It can be used with either one or two separate pickup devices and is ideal for facilities maintenance contractors who need to collect wash water or for restoration contractors who need to pick up water after a fire or flood.

When you are in the job-site and need to pick up water from a cleaning job whether a parking lotor building floor this is the vacuum system that will “set the job done” quickly and efficiently letting you go on the next job.

PERFECT FOR

- Restoration Contractors
- Maintenance Contractors
- Contractor Cleaners

WHY CHOOSE ALKOTA

There is no reason that machines need to be complicated to do their job.

Our team of engineers and product developers have been designing, building and improving cleaning systems since 1964. When you buy an **Alkota** equipment, you’re buying quality and longevity. It is an investment in the future of your business.

At **Alkota** we believe that simplicity means quality.

Being American owned our machines are built with high quality materials the old-fashioned way, by hand. We design and assemble them right here in the heart of the **USA**, so that you know you’re getting an American-built machine.

MADE IN THE U.S.A

MODEL	VACGD18	VACGD23	VACGD35
Part Number	8-VACGD-00000B	8-VACGD-000000	8-VACGD-00000D
Capacity	Up to 225 CFM	Up to 350 CFM	Up to 495 CFM
Engine	18 HP Vanguard	23 HP Vanguard	35 HP Vanguard
HG Lift	10” Hg	10” Hg	14” Hg
Weight	400 lbs.	500 lbs.	550 lbs.

Standard Features

- Up to 495 CFM / 14 Hg / 190” Lift
- Belt Driven Positive Displacement Blower
- Oil Level Sight Glass
- Oil Bath Gear End
- Heavy Duty Vacuum Relief Valve
- Extra Quiet Magna Flow Blower Silencer
- Vacuum Gauge
- Cam Lever Hose Couplings
- Heavy Duty Frame
- Garden Denver Blower
- Air throttle valve for control of air flow when using different pickup devices or varying hose lengths
- Recovers up to 25 GPM
- Use hose lengths up to 350 Ft
- No basket strainers or Bag Filter to clean
- Requires 2” diameter vacuum hose and 2” diameter discharge hose

Optional

- 13 Gallons Fuel Tank
- 8-VFS Filtration Separation System
- 50’ 2” Vacuum Hose
- 100’ 2” Vacuum Hose
- 20’ or 40’ Vacuum Boom
- Vacuum Surface Cleaners
- Water Fill Berms
- 300 Gallon Collection Tanks
- 500 Gallon Collection Tanks
